May 2015

To: Jost Chemical Customers,

As you are aware, the U.S. Department of Labor's Occupational Safety and Health Administration (OSHA) modified its Hazard Communication Standard (HCS) in March 2012 to align with the United Nations' Globally Harmonized System of Classification and Labeling of Chemicals (GHS). By law, all Material Safety Data Sheets (MSDS) and labels for all potentially hazardous chemicals manufactured in the U.S. must be converted to the GHS format by June 1, 2015, deadline established by OSHA.

Jost Chemical will transition to the new GHS label. This change will be made on all shipments on, or after, June 1, 2015.

Jost Chemical looks forward to supplying your needs.

Regards,

A handwritten signature in dark ink, appearing to read 'Jeff Lenger'. The signature is fluid and cursive, with the first name 'Jeff' being more prominent and the last name 'Lenger' following in a similar style.
