FERRIC PHOSPHATE

DIOXINS / PCBs

Jost Chemical's Ferric Phosphate is manufactured by chemical synthesis using high purity raw materials. The above mentioned product is not routinely tested for dioxins/PCBs. However, based on a detailed knowledge of the raw materials and processing conditions, dioxin/PCB contamination is not considered a significant risk.

PESTICIDES / AFLATOXINS

Jost Chemical's Ferric Phosphate is manufactured by chemical synthesis using high purity raw materials. None of the raw materials used are agricultural products and none are treated with pesticides. Therefore, the above mentioned product is not routinely tested for pesticides/aflatoxins. Based on a detailed knowledge of the raw materials and processing conditions, pesticide/aflatoxin contamination is not considered a significant risk.
